

September 11, 1997

To Whom It May Concern:

Herb and Sandra Hennigan performed at the 1997 California State Fair, along with their Spinning Frisbee K-9's. They were terrific!

We asked a lot of the Hennigan's in that the performance location was in front of the tote board on our race track; the shows had to be limited to five to eight minutes each - three times throughout the day; and most importantly, since dogs and horses don't mix, they had to be away from the horses' view as soon as the horses came on the track. This meant that the human part of the show had to keep watch on the saddling paddock at the same time as the show. Not an easy task.

Throughout all 12 days of their performances, the Hennigan's cooperated totally with our every request. They are incredibly understanding and easy to work with.

The show was great. We heard many times that people were at the track just to see the dogs! Hopefully, they put some money on the horses as well.

In short, I would highly recommend Hennigan's Spinning Frisbee K-9's for any venue. They are a real draw and an asset to any program.
